- * This vehicle must be recognizable as an OLDSMOBILE built vehicle and be street legal at the time of Judging.
- * Under each category disregard the memory jogger "authenticity."
- * Additions or deletions of any components or trim should be judged solely on their quality and installation.
- * A STREETSTOCK or MODIFIED vehicle no longer conforms to original supportive literature, therefore substitute the above OVERALL APPEAL for supportive literature. Deduct 1-15 points for this vehicle's appeal to you as a team. EXAMPLE: Regardless of material and workmanship, if an entry simply does not "appeal" to you, deduct 1-15 points. Conversely, if the entry has shabby workmanship, but you like the attempt and basic design, then deduct 0 points. Remember, this is not the place to deduct points for some component you have already judged. This is "OVERALL APPEAL."
